DISTRICT K. P. ENTERTAINED

Three Grand Lodge Officers Attend
Convention Thursday—List of
the Delegates.

Diadem Lodge No. 81, Knights of Pythias, gave the Sir Knights of this district handsome and sopable welcome when they met here in annual convention Thursday. The Stanford K. P. boys were never known to do things by halves, and their entertainments of the district body was provided in the usual fine style.

Grand Chancellor R. A. Young of Winchester, Grand Keeper of Records and Seal, J. W. Carter, of Lexington, and Superintendent of the Widows' and Orphans' Home M. G. Moore, of Lexington, were the grand lodge officers who honored the district convention with their presence, as did District Deputy Hon. J. R. Dorman, of Nicholasville.

About a hundred delegates were present from the various lodges of the district, and all were made to feel that they were welcome. The business men and members of the Chamber of Commerce co-operated in every way possible with the local knights in greeting and entertaining the guests, most of whom came by automobile. About a hundred were present, and all seemed to enjoy themselves and appreciate the hospitality of Stanford, and Diadem lodge.

Formal lodge and business sessions were held in the castle hall of Diadem lodge in the afternoon and again in the evening. Addresses to the knights were made by the grand lodge officers here. In the evening after lodge work had been exemplified, the members all adjourned to the opera house where the moving picture scenes of the Widows' and Orphans' home at Lexington were shown to large crowds in addition to the regular fine Paramount program. Afterward, a supper was served to the visitors at The Princess, which wound up a day full of good things for the visitors, who departed with loud praises of appreciation for Stanford and her people.

A register kept in the lodge room of the visitors who attended the formal sessions, showed the following names:

D. A. R. ENTERTAINED.

One of the most attractive affairs of the week was the regular meeting of the Logan-Whitley Chapter of Daughters of American Revolution, at the home of Mrs. J. C. McClary, on Portman avenue, Wednesday afternoon. The members had a regular business meeting at two-thirty, and it was definitely decided they were to have another picture show in a few weeks. Later in the afternoon Mrs. McClary had as her guests, Mrs. Robert Todd, Mrs. George B. Cooper, Mrs. Joe B. Paxton, Mrs. T. K. Watson and Mrs. M. D. Early. A very interesting Revolutionary War aero-sitic, which was originated by the hostess, was given to each person. Mrs. Cooper was lucky in the draw for a lovely box of candy. Mrs. McClary, in her usual gracious southern way, served a delectable salad course, assisted by her daughter, Mrs. Shelton M. Saufley. The members of the Chapter who were also the guests of Mrs. McClary were Mrs. Wm. M. Bright, Mrs. Shelton M. Saufley, Misses Sue Rout, Jennie Warren, Esther Burch, Levisa Harris, Josephine Carpenter and Nancy Yeager.—N. Y.

DR. DARLINGTON HONORED

Husband of Stanford Girl Heads Big Methodist College.

Much interest has been caused here and elsewhere in Kentucky over the announcement in the Huntington W. Va., papers that Rev. U. V. W. Darlington, has been elected president of Morris Harvey College at Barboursville, W. Va. Dr. Darlington married Miss Virginia Bourne of Stanford, and has a great many warm friends and admirers in Kentucky, his native state. The Herald-Dispatch, of Huntington, in telling of the matter said in part:

"This is an announcement which will create a degree of surprise which will amount to a sensation in the bounds of the Western Virginia Conference of the Methodist Episcopal Church, South, in which there is any other clergyman so well known as Dr. Darlington. The new president has for the last three years devoted his energies to the upbuilding of Morris Harvey College, the official educational institution of the Conference. When he concluded a pastorate of four years at Johnson Memorial Church he accepted the post of Conference Secretary of Education. He held this post a year and the second year performed the duties in connection with those of presiding elder of Ashland district. During the present year his attention is being engrossed by the duties of the secretaryship. During these years he has done substantial work toward the creation of a \$100,000 endowment fund for Morris Harvey, while this year, through a campaign for one dollar subscriptions he has practically lifted the floating debt of the institution.

U. V. W. Darlington was born in Shelby county, Kentucky, August 3, 1870. He was educated in the common schools of his native county and at Kentucky Wesleyan College where he was prepared for the ministry. He was admitted to the Kentucky Conference of the Methodist Episcopal Church, South, in 1896 and was made pastor of East Maysville and Washington Stations. His next station was Millersburg, where he spent one year.

The next year he went to Covington, his first important station, where he spent four years, thereafter transferring to the Western Virginia Conference to be pastor of the First Church at Parkersburg.

After Parkersburg he came to Huntington to be pastor of Johnson Memorial church. It was under the inspiration of his leadership that the church erected its present magnificent edifice. No pastor who has served in Huntington has been more deeply loved by his own people than he—few if any have achieved such popularity without the bounds of his denomination. He has continued to live in Huntington and is loved and admired by hundreds of people. No selection which could have been made in the matter of the popularity of Morris Harvey could have been more popular than this bids fair to prove. Dr. Darlington was given his degree, Doctor of Divinity, by his alma mater, Kentucky Wesleyan, two years ago."

To Be Filled In April by Democrat—
Applicant Was Here

What is said to be the handsomest store in Kentucky, regardless of anything, will be formally thrown open to the public at Danville Saturday when the magnificent building of the Welsh & Wiseman Company will have its opening. Finished on the outside in cream colored brick, with a front that for beauty and expression of good taste is without an equal anywhere, the building is one of the handsomest from an outside view to be found in Kentucky. In its three floor furnishings and equipment within, however, it is that the rare good taste of the true connoisseur has been shown. From top to bottom every stick of the furniture is of mahogany. Every article of furniture, every showcase, and all the boxes are of the very latest design and model, chased and conservative with an elegance and richness which commands instant attention. A host of people from this section are preparing to inspect the beautiful building Saturday.

The building is practically four stories in construction. There is a basement with concrete floor under the entire building. All goods are opened up in the basement and made ready for the sales rooms. All boxes are taken into the basement by means of a pavement elevator of the latest type. The basement is thoroughly ventilated. The building is heated by a complete steam plant.

The first floor is used for the jewelry, piece goods, gloves, hose, underwear, notions and fancy articles. In the rear is a most complete department for high grade shoes for ladies, misses and children. The fixtures are all of the best mahogany, as are also the woodwork in the elaborate show windows. In the mezzanine floor are the cashier's desk, private offices, ladies' rest room and general offices.

On the second floor is located the ready-to-wear department, corset and the new juvenile department, and the beautiful new millinery department, fitting rooms,

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among

the many things which we read about and hear of, an immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend". This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it relieves pains incident to the pregnancy.

Mr. Frank Wentjes has taken Mr. Mill Schmitz's route.

Mr. Schlappi sold a farm to Mr. Henry Jentsch at a reasonable price.

Mr. Ernest Pike, who is now in Alaska says there is lots of profit in chicken business, and advises Mr. Paul Ensslin to start into it.

The farmers of this section are busy putting up new fences and repairing those the storm had damaged.

Mr. Emil Henzen has been busy the past week sowing his spring crop.

Mr. Ernest Stichler and Miss Agnes Schuler; Misses Julia and Lizzie Stichler, Nellie Schuler and Lizzie Schmitz, were the guests of Mr. and Mrs. Fred Schlappi Sunday afternoon.

Ligaments and muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morning sickness, and a removal of that apprehension with which so many young women feel before the birth of their babies. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradford Regaline Co., 100 Peachtree Street, Atlanta, Ga. for a very handsome and interesting book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

Mr. William Schmitz, a well known young man of this section, left for North Dakota. Friends and admirers were sorry to see him go.

Mr. Ernest Iverson has a fine organ for sale, but has no buyer.

THE IRON CLAW

(Continued from Tuesday)

Before Manley's senses had come back to him he and the green-feathered parrot had been tossed bodily into the closed car, and, three minutes before the arrival of the police for whom the white-faced girl in the library had so frantically telephoned, that mysterious limousine had speeded off into the night, carrying not only Legar but the youth who had been so presumptuous as to attempt to interfere with Legar's explicit.

But Manley did not altogether give up. His heart still had the resilience of youth. He still believed in his side, lying face down and trying each row of exposed bricks with his shoe toe, in the hope of finding one of them loose.

He had elaborately tested eleven rows before he found any reason for hope in this direction. A chill of excitement ran through his tired body, in fact, as he discovered one brick which seemed less securely embedded in cement than were its fellows. He worked at it patiently, laboriously, kicking away small particles of plaster, thumping it with his boot heel, prying at it with his sole until it rocked free in its row. Then came the even sterner task of shifting it from its place. This he did by turning about and lying close to it, on his side, so that the fingers of his tightly imprisoned hand might come in contact with its edges. Time after time it fell back, but in the end he triumphed.

Yet even as Manley stood there, fighting for breath, a second surprise both confronted and engulfed him. Following close on that telltale roar of sound came an even more bewildering rush of water, tearing through the low-roofed cellar like a thousand hounds let loose. And he knew then that the explosion had broken down the walls between him and the East river at high tide.

He leaped in the direction of the door, in the hope of getting it closed.

He was still struggling frantically at this door when a heard a voice, and at first he thought it was a human voice, crying shrilly through the gloom.

"Let me out!" was the frantic cry close above him. "Let me out!" Groping and pawing along the wall, his hand came in contact with the rung of a narrow iron ladder. He caught at this ladder and drew himself up, for he now stood shoulder high in the ever-mounting flood. On the topmost rung, as he mounted, he found a shaking and feathered body clinging stubbornly to the rusting iron, beating with its beak on the hollow sounding boards above his head.

In a flash Manley himself was shuddering up against these boards. There was the sound of a rending staple, and in another moment he was swarming up through the ruptured trap door, catching at the parrot as he went.

at hand.

The heavy glass lamp, hurled true, sent man and match against the case side in a shower of oil and broken glass. But Manley did not wait to witness the result of that second assault. He leaped for the door, caught up the blue-barreled revolver from the hand of the stunned man on the threshold, and drove for the heavier door at the end of the outer chamber.

But this door he found to be locked. He was on the point of starting back in search of a timber heavy enough to batter down that barrier when all movement was arrested by an uproar of sound that fairly drove the breath from his body. For the shower of oil that fell about the lighted match at the vaulted end of the side chamber had sunk into the litter of rubbish beside the powder cases, had burst into flames and had crept closer about those wooden cases until the licking tongues of heat had reached the explosive.

Yet even as Manley stood there, fighting for breath, a second surprise both confronted and engulfed him. Following close on that telltale roar of sound came an even more bewildering rush of water, tearing through the low-roofed cellar like a thousand hounds let loose. And he knew then that the explosion had broken down the walls between him and the East river at high tide.

gering into the maw of the open vault, and with a throaty and beastlike cry of triumph swung the great steel door shut, even as the partly-dressed Wilson ran gaping in through the library door. Yet Legar took time to throw back the tumbling lever and spin the dial before turning to confront that wide-eyed servant. Then, hearing other approaching steps, he dove through the second door, scurried like a pealed hound through shadowy rooms, slipped eel-like through a quickly opened window and escaped to the street.

There he ran for a dark-bodied car standing in the deep tree shadows, and with a gasp of relief flung himself up into the cushioned seat.

As he did so a masked figure sitting crouched close back in the hooded gloom of that seat suddenly threw out a hand and garroted the startled Legar against the leather upholstery, on which he began to writhe like a caterpillar on a cabinet pin. But with an equally deaf second movement the man in the yellow mask snatched the oblong manilla paper from his opponent's hand.

"This," blandly announced the man of mystery as his garrotting fingers relaxed and he stepped down to the running board, "is one of the rare moments when I have the pleasure of trumping your ace!"

And the all but apoplectic Legar lay back gasping for breath as that stranger dropped lightly from the speeding car and vanished shadowlike into the night.

At the home of Enoch Golden, in the meantime, the terrified Wilson had regained both his feet, his presence of mind and a presentable portion of his dignity. His frantic shouts for help had brought the rest of the servants flocking to the library, and his equally frantic efforts to describe what had taken place did not add to the peace of that little group from below stairs.

"I tell you, Tibbins, Miss Margory's locked in that vault, and there's no one in the 'ouse as knows 'ow to open it!"

Cries of horror burst from that suddenly arrested circle.

"Someone telephone for the police!" cried the second man, as Wilson shouldered out through the group swarming and gesturing about the vault door. "Yes, the police!"

He crossed to the rosewood desk to carry out this plan, and her finger was even extended to press the bell button when the shrill call of the telephone bell sounded from below stairs.

Confronting her, with a slightly triumphant smile on his deep-scared face, stood Legar himself.

"I am intruding, I know," he began in his suavely acidulated tones, "but there was a possibility, you see, of your friends in uniform interrupting our meeting beside the Soldiers' monument."

The girl's fingers, as she edged away along the desk, closed determinedly on the scrap of manilla paper still held in her hand. The vault door, she saw, was also still open. But that was not the thought troubling her. The vague fear at the back of her mind was whether or not she was too late to save Dave Manley from the danger threatening him. And she edged still farther away.

Her movement was arrested by the ringing of the telephone bell close beside her.

"Answer that phone!" he suddenly commanded.

The next moment a great load seemed to lift suddenly from her heart, and a renewed wave of audacity swept through her body, for the voice that spoke to her over the wire was the triumphant voice of Manley himself.

Manley declaring that he was free and that he would hurry back as fast as wheels could carry him.

"Twenty-one, thirty, forty-two, sixty," she repeated, recalling her father's instructions over the wire. "Forward and back and forward and back again, for it's a four movement dial, whatever that may mean!"

Manley knew what this meant, and it spurred him to even more frantic efforts to saw through the cords, still holding him a prisoner, for already the fumes of the escaping gas were reaching his nostrils.

When one strand of it had parted, and he had uncoiled the rest of it from his ankles, his head was swimming and his legs were unable to support him. So he crossed the room on his hands and knees, caught at the rusty gas pipe for support and painfully drew himself upright. His trembling hand went out, found the gas jet, and turned it off. And the next moment he fell face down on the rough floor, and lay there in a gray daze of weakness.

She crossed to the desk and took up the receiver.

"Do you know who is speaking?" demanded a voice which sent a thrill of apprehension through her forward-sloping body. And the question was repeated as she sat silent, staring before her.

"Yes," she finally answered, trying to steady her voice. "It's Legar."

The wire brought his answering laugh close into her ear.

"You know the voice, I see. And I think you know the man. So listen to what I have to say. I've got your friend Manley, and he'll stay where I've got him. And unless you want him turned out of here with about half of that pretty face of his burned to a crisp, you'll do what I tell you to do. Do you understand? I'll scar him worse than I was scarred, if you try any tricks with me in this!"

"In—in what?" demanded the white-faced girl.

"In exactly one-half hour I want you to walk past the Soldiers' monument and hand me a paper. That paper is somewhere in your father's vault. It is one half of a code list and chart, on a square of yellow manilla. Do you understand?"

"But how am I to know this paper?" asked the terrified girl, fencing for time.

Margory Golden, however, had no intention of giving him the map in question. She fought against him, with all the strength at her command, knowing that any moment now would bring the needed help.

But Legar, with his hand on her throat, hurled her back against the heavy vault door, shook her as a terrier shakes a rat, snatched the yellow sheet from her fingers, flung her stag-

With two hucksters and two traveling mercantile stores through this section, the hens are kept busy supplying eggs for the trade.

The few pretty days last week furnished early gardeners an opportunity to plant peas, beans and other early frost-proof vegetables.

Governor Stanley seems to be well pleased with the work of the late legislature. He likely would have been better pleased had it passed a certain "splitting" bill he seems to have been interested in.

Dr. A. K. Caldwell and wife, of Waynesburg, were at Yosemite Wednesday to see Bud Short, who is an uncle of Mrs. Caldwell.

During a wrangle in the late legislature, Representative Jack Wall told an assistant sergeant-at-arms to go to hell, and it is supposed by some that he went direct to Governor Stanley's office.

Jesse Austin is reported very sick at his home at Liberty. He has pneumonia and has been sick some two weeks.

Miss Essie Haney, the pretty daughter of Dr. J. M. Haney, has taken the position as clerk in Jason Coffey's store vacated by Mrs. Tenny Smith, who is now Mrs. W. T. Miller. Embry Albright of Brodhead, was here last week buying junk.

Prof. W. J. Sharp, who is teaching at Marietta, Ohio, is here for a short visit to his parents, Mr. and Mrs. R. M. Sharp.

During the high winds Wednesday W. G. Short's house, just west of town, caught fire on the roof, but it was discovered before the flames got much headway. When Mr. Short discovered the fire, he ran up a ladder that happened to be standing against the house, and dashed a large bucket of slop on the blaze which subdued it until other help arrived. It was a close call, and owing to the unprecedented high wind it is a great wonder that the building was saved.

The congregation of the Baptist church here, and that of the Christian church at Yosemite, will worship together at the Sunday morning service. Rev. J. W. Beagle will preach at the Christian church at 11 o'clock, and Rev. Luther Young will likely fill Bro. Beagle's pulpit at night. The Baptists will hold their Sunday-school services at the usual hour, and arrangements will be made to convey everybody to Green River for the preaching service.

Jimmie Jones caught two channel catfish in the river here Saturday morning. The two tipped the beam at 7 1/2 pounds.

Jennett T. Short, whose illness we have mentioned several times in these columns, died at his home at Yosemite Friday afternoon. Deceased was 40 years old, and was a brother of J. W., W. G., and Arch Short, besides, is survived by several sisters. On returning from the Philippines where he had served as a soldier, Mr. Short married Miss Emma McWhorter, daughter of Mr. and Mrs. J. H. McWhorter, at Yosemite, and she with four small children survive him. Mr. Short was a clever man and always stood for the right against wrong-doing. The remains were buried in the Middleburg cemetery Saturday afternoon, after services at the Baptist church, conducted by the Rev. Joseph Montgomery.

The road bonds were defeated Saturday in this county by a majority that precludes all fears of a contest. The majority against the proposition is said to be about 200, and is no more than was expected. For here where a larger majority for the bond issue would be reasonably expected, the sentiment has always been about evenly divided. Jenkins precinct did

Dr. Anderson, the famous Kingstone, Tennessee, practitioner, was at Yosemite Saturday. He came here to look at the Golden Dawn Springs property with a view to purchasing same, and converting the large hotel into a hospital. His appearance at Yosemite created great excitement there. People almost ran over each other to get a peep at him. The impression was abroad that he was an Indian, and everybody was surprised to see nothing more than a very black negro. He was accompanied here by Joseph Waddle, of Somerset, who has an option on the Golden Dawn property.

What
J. S. Mobley & Son of McKinney
has to say about cream separators this week.

YOU will find the De Laval is the easiest and most satisfactory to use and keep in good running order.

There is nothing about the operation, cleaning, adjustment or care of a modern De Laval which requires expert knowledge or special tools.

There are no parts which require frequent adjustment in order to maintain good running or to conform to varying conditions in the every day use of a cream separator.

MAKES NEW FLYING RECORD.

Lieut. R. Caswell Saufley, of the U. S. Naval Aviation station at Pensacola, Fla., broke a world's record for high flying this week when he ascended to a height of 16,072 feet. Lieut. Saufley is one of the pioneer aviators of the naval service and has had more experience at his hazardous profession than probably any other aviator in Uncle Sam's service, as he was the first one to fly over Vera Cruz when the American forces occupied it two years ago. His many friends "back home" have watched his career with much interest and are very proud of the fine record he has made.

High School News

The program rendered Friday, March 24, during the chapel exercises was: Reading, "The Reconsidered Verdict"; George Fleece Farris; Piano Solo, Sara Beck; Reading, "The Sleepy Foot," Adalade Proctor; Piano Solo, Annette Wearen.

Prof. Wilson announced that the Junior Oratorical contest will be held in the school auditorium this (Friday) evening. This entertainment is free and we hope for a large number present. Also if you want to see some of the good work that is being done by this department, this will be your opportunity. Those who will speak are: Margaret Pettus, Lucille Ballou, Eddie Bruce Baughman, Mabel Masters, Adalade Proctor, Mary Katherine Hocker, Sara Beck, Louis Phillips Joseph Ballou, George Fleece Farris, Gatewood Beasley, Houston Yager and Powell Withers.

Dr. R. H. Crossfield, president of Transylvania University, made the school a visit last Friday morning "Preparedness, or Why Go to College." Everyone felt much benefited by his oration.

Rev. W. D. Welburn conducted the devotional exercises in chapel Monday.

Beginning Monday the dinner period was lengthened from one half an hour to the full hour, which causes school to dismiss at 3:30 instead of 3:00.

Sam Embry made the announcement to the boys of the High School Monday that those who wished to try for the track team would from now on be permitted to practice half an hour before school let out and if you wanted to leave then, you could. Heretofore all track practice has been done after school hours and the Captain wishes to see more contestants out than ever before. Those who try for this team will have the same use of the club room as the other athletes.

Stith Noe, one of Stanford's most promising young men, had to undergo an operation Thursday, as a result of an injury received during a basketball game, while living at Campbellsville. He stood the operation nicely and is now getting along alright, and it is hoped that he will soon be out again. He is a great partaker in athletics and his absence will be felt considerably on the school's nine during their games today and tomorrow.

The members of the Mozart Club have been reviewing for several weeks for their examination in Musical History, Harmony and Analysis. A rigid examination was given Wednesday and the papers are now in the hands of one of the teachers of the College of Music in Cincinnati. Meanwhile the girls are having their spring hats trimmed and making other preparations to attend the May Festival, each one hoping that she will win the trip offered by the club. The treasurer has the funds ready to defray the expenses of the writer of the best paper.

Be sure and don't forget to come out to that star base ball game this afternoon between the local team and their old rivals, the nine from Hustonville.

Several members of the Mozart Club were absent Thursday, the examination in Musical History having probably gotten on their nerves.

DANGERS OF DRAFT.

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give great relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c at your Druggist.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

To be possessed of a head of healthy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Dandene.

It is easy and inexpensive to have nice, soft hair and lots of it. Just

a 25-cent bottle of Knowlton's Dandene now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—but really new hair—sprouting out all over your scalp—Dandene, is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once. If you want to prove how nice, soft and shiny your hair really is, moisten a cloth with a little Dandene and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this. 26-1

Indoor Worker

Is Handicapped

Office Men Often Pay Penalty of Indoor Grind.

We can't all be devotees of the great out-of-doors, and so the office men and women too often pay the penalty of the all-day grind at the desk.

There comes in many cases the sluggishness that is bred of physical inactivity and the ailments that mark the indoor man for their own.

To say "I feel good all over" is to speak the acme of content, and when this is supplemented by a steady, healthy increase in weight after a long period of suffering, the fortunate man usually feels that he wants to share his good luck with the less fortunate "other fellow."

It is this spirit that prompts so many prominent business men in every community to endorse Tanlac. Tanlac assists nature to throw off depression and in its place to stimulate the system, with the result that energy and vigor return.

That "tired feeling" means a good deal more than is generally realized. It is one of the symptoms of a more serious condition. It is not laziness, it is a physical ailment that needs correction before it takes a firm hold on you. The results of the Tanlac treatment are amazing.

Tanlac tends to make tired out, listless persons sturdy and of real manhood and womanhood like those old-fashioned but most sensible folks—the pioneers.

As a tonic, appetizer and invigorant, nothing ever has been discovered that will compare with Tanlac. It builds new tissues, vitalizes the blood and acts so favorably on ailments of the stomach, liver and kidneys, and catarrhal affections of the mucous membranes.

Satisfied users of Tanlac have proven to be Tanlac's best advertisers. Men and women, from the highest to the lowest walks of life, everywhere are testifying daily to the relief Tanlac has brought them. No other remedy has won such endorsements, that can only come from superlative merits.

Tanlac is being especially introduced in Stanford, Ky., at Penny's drug store, where the Tanlac man is daily explaining its merits and the results that may be expected from its use.

Tanlac may be obtained at the following nearby cities: Moreland, Abraham Minks; Hustonville, Adams Bros.; McKinney, True & Co.; Ellensburg, Joseph McWilliams; Middleburg, W. C. Bryant; Crab Orchard, Lyne Bros.; Brodhead, John Robins; Junction City, Reynolds & Evans; Lancaster, R. E. McRoberts.

Permanent Relief for Chronic Constipation

KNOWLEDGE AND PRACTICE OF CORRECT DAILY HABIT THE GREAT ESSENTIAL.

Constipation is a condition affecting all classes of all people and can be permanently relieved only by acquiring habits of regularity.

The most natural time for the eliminative process is in the morning when both the muscular and nervous systems are relaxed by sleep and rest. When relief does not come readily, it is an excellent plan to take a mild laxative at bedtime. Cathartics and purgatives, that by the violence of their quick action shock and disturb the system, should not be employed.

An effective laxative remedy that is very dependable, and which does not gripe or otherwise disturb the organs involved, is found in a combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin that can be bought at the drug store for fifty cents a bottle.

Mrs. C. C. Allen, 215 Faam St., New Monterey, Calif., wrote to Dr. Caldwell that she "found Dr. Caldwell's Syrup Pepsin just what was needed for constipation and distress

Mrs. R. M. Blackerby has had a severe spell of grip.

Mrs. Dexter Ballou, of Stanford, and daughter, Margie, attended the concert and visited her mother and sisters here.

Mrs. W. J. Edmiston has been suffering from bronchitis but is improving.

Last Saturday morning Uncle John Edmiston, was feeling quite well, and disregarding the counsel of the doctor and family not to try to walk round alone, went out on the porch to examine the thermometer and upon turning, lost his balance and fell.

He did not break any bones, but hurt his spine and has been in a most helpless condition since. The family are as attentive to him as to a baby and Miss Addie Cochran will never reward her just reward in this life for her faithful and loving patient care of Uncle John, and many other aged ones whose care fell to her, and her sweetest recollections are that she helped make their old days as comfortable as possible.

For the benefit of those friends at a distance who are anxious to know the names of all the folks who participated in making the concert a success, we will state the names of all who sang in the choruses: Mrs. M. E. Fish, Mrs. Mollie Burgin, Mrs. Buchanan, Mrs. Cherry, Mrs. Sanders, Mrs. Edmiston, Mrs. Allie Pettus, Mrs. Robert Thompson, Miss Anna Thompson, Mrs. Caltha Newland, Miss Mayme Holdman, Miss Annie Hutchinson, Mrs. Hamilton, Mrs. Hunt, Miss John Eva Hilton, Mrs. Stephen Wood and Messrs. Wood Peters, George Holmes, Bragg Thompson, Thomas Hayes, Brionaugh and Billy George Holdman. Mrs. Kittie Thompson presided at the piano, assisted by Mrs. Jamie Carpenter.

Mr. J. T. Chadwick wishes to thank every man and boy who labored so hard to save his house during the fire and says he can never forget their hard work and how well they performed it, and wishes he could take each by the hand and tell how he feels.

Valuable Health Hints For Our Readers

CATARRH

Just because you hawk and spit and your nose is wet, cold, red, sore and a nuisance, don't merely plug it up. You can't cure catarrh by greasing your nose. Take S. S. S. regularly and you will drive catarrhal poisons out of your blood. The membranes will soon recover and no longer continue to secrete the mucus that gathers and thickens into catarrh. S. S. S. stimulates the cells of the tissues to select from the blood their own essential nutriment. Rapid recovery from catarrhal inflammation in the stomach, kidney, bladder and all membranes is the result.

MALARIA

Throughout the country, wherever malaria abounds, are happy, joyful people to whom S. S. S. has given wonderful help in the treatment of malaria after the most sickening torture imaginable.

The gaunt complexion of malaria's victims, the chills and fever, the malarial dysentery that seems to defy all other treatment, the terrible cog, the enlarged liver, the persistent anæmia where the blood turns to water and the system wastes away. These are the conditions that S. S. S. so effectively assists in overcoming, by helping to restore the blood to its natural vigor.

STUBBORN SORES

Sometimes a sore spot becomes indolent. The tissues surrounding it lose tone and are unable to provide sufficient nutriment to stop the drain. It is then chronic. Just saturate your blood with S. S. S. This is quickly accomplished, as S. S. S. is naturally assimilated the same as milk or any other healthful liquid.

Nature acts with marvelous rapidity when given the proper assistance, and S. S. S. so stimulates cellular activity that the parts surrounding an ulcer select from the blood the materials that make new tissue. Thus the sore spot rapidly heals in a natural way.

Local applications for any skin disease will afford protection from with-

out, but have no medical value. Eczema, tetter, acne and all such eruptive diseases should be treated with S. S. S.

POISONED BLOOD.

So many different things contribute to poison the blood and the effect is so startling that the sufferer becomes panic-stricken and is led to use harmful remedies. If you have any blood trouble, get a bottle of S. S. S. and take according to directions.

Don't take anything else. Poisoned blood is bad enough without ruining your bones, joints, teeth and vital organs with minerals. S. S. S. so stimulates cellular activity that they reject all noxious influences and select only those materials from the blood that make healthy tissue. This is why its assistance toward recovery is so noticeable and at times remarkable.

S. S. S. is welcome to the weakest stomach and is assimilated just as readily as the most nutritious food. It has helped to cure a host of sufferers.

RHEUMATISM.

In any form of rheumatism give the blood a good effectual cleansing with S. S. S.

Use this remedy for three days and take a hot salt water bath to open the pores. This relieves the lungs and kidneys and assists S. S. S. to utilize the skin as the principal avenue of elimination.

Avoid salts, calomel and other drastic purgatives, as they absorb the moisture from the walls and membranes of the intestines, weaken the muscular action, produce chronic constipation and thus stagnate the system with rheumatic poisons. Get a bottle of S. S. S. at any drug store. Don't stay to substitute.

have to say about cream separators this week

In the last ten or fifteen years there have been dozens of cream separators come on the market which claimed to be "world beaters." But they couldn't make good in the hands of the users and one by one they dropped out of sight.

Their owners were willing to take a risk and they lost. If you buy a cream separator from us you run no risk of dissatisfaction or loss.

The De Lavai is tested and time proved

Why experiment? What's the use of taking chances with a machine you don't know much about, or an inferior machine when you know that a De Lavai is recognized everywhere as the "World's Standard."

More than thirty-five years of experimental and experience have made the De Lavai pre-eminently the best machine on the market for the separation of cream.

If you have no separator now, or an inferior one, we can sell you a De Lavai on such terms that it will pay for itself while you are using it.

Sooner or later you will buy a DE LAVAI

Stomach Trouble Solved

Most stomach troubles are not diseases. The stomach is simply weak. Tired out. The right kind of a tonic is what is needed. A few meals, well digested, will furnish natural strength. That is what a tonic will do for you. It will start the stomach going right. Then the stomach will take care of itself.

Don't Neglect Kidneys

Swamp-Root, Dr. Kilmer's Prescription, Overcomes Kidney Trouble.

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

The kidneys should receive some assistance when needed. We take less exercise, drink less water and often eat more rich, heavy food, thereby forcing the kidneys to do more than nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, warns that your kidneys require help immediately to avoid more serious trouble.

An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp Root. There is nothing else like it. It is Dr. Kilmer's prescription used in private practice and it is sure to benefit you. Get a bottle from your druggist.

However if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Stanford Semi-Weekly Interior Journal.

Kentucky Made Vehicles for Kentucky People at Wholesale Factory Prices

Read What Customers Say

JAMES E. GRAY, Waterford, Ky. says: "My buggy arrived in Taylorsville today and I am well pleased with it. I am sure I could have purchased no such buggy of any other firm or factory for a price so reasonable. It is not only well made and stylish, but is very comfortable. One advantage to you in my opinion is that it will prove to be what it is guaranteed to be. All of the neighbors and friends to whom I have shown the buggy agree with me that it is the greatest bargain, and I suspect it will only be a short time until you will receive several orders from this part of the country. I am going to do my best advertising and sending catalog, for I feel that you have proven a service to me by sending such a buggy; therefore I shall encourage and make as many sales as possible to show my appreciation."

T. C. WILLIAMS, McDonald, Tenn. writes: "I received my buggy all O. K. and find it is a dandy one and everyone who has looked at it has passed a compliment on it. It is a well-built vehicle and I am well pleased with it. I hope that I may be the cause of your selling more in this country."

EDWARD THORNTON, Fox Chase, Philadelphia, Pa. says: "I find my buggy uses up to every feature you claim for it. It is perfectly comfortable. I have ridden 25 miles at a time with no fatigue. I was so much pleased and interested that some of the strongest associations with the manufacturer having purchased many goods and advertisements. From your many, straight-from-the-shoulder correspondence, I was persuaded to send my order. I am fully convinced your method of doing business has been the secret of your success, and when next in the market for a carriage the order is sure to go to you."

A. F. CARPENTER, Wolfstown, Va. writes: "I received my buggy the first of September. Since that time have given it a thorough road test and I find it exactly as you represented it to me. I am perfectly satisfied with it in every respect—in fact, I have seen none equal to it for a much higher price, and I feel I have value received for every cent of my investment."

EDGAR M. HUNT, Sanders, Ky. says: "Like my buggy has harness fine. I like it better than any buggy I ever saw. Several men who have buggies call and say they want to buy a buggy from you in the spring. You can use my name in advertising if you wish to do so. Please send Mr. E. K. Davis a catalog of your buggies, as he asked me to write you for one."

EMORY M. McCORD, Greenwood, S. C. writes: "We are more than pleased with the buggy you shipped us the first of June, and now it is December 6th, and every one who sees it wants to know where we got it. We have had a good many to ask how much we paid for it and they seem to be more than surprised at the price paid for a plain buggy. A friend of ours who has a buggy said we got ours and paid \$115.00 for it without harness. When we get ready for another new buggy we will not think of buying from anyone but you. I am sending you names of friends. I do hope you will be able to sell each a new buggy."

MARCUS A. WHISLER, Jamestown, Ind. says: "Buggy and set of harness fine. I like it better than any buggy I ever saw. Several men who have buggies call and say they want to buy a buggy from that rig that the pictures shall not cost you anything. I am not in the habit of bragging on anyone, but I will when it is worth while."

LAWRENCE MELUGIN, R. F. D. No. 1, Reeds, Mo. writes: "I am mailing you a picture of myself, horse and buggy which I bought from you some time ago. It is a very good picture, but maybe it will give you some trouble in getting it printed. Please print it for I think you have done me enough favors and gave me such a good bargain on that rig that the pictures shall not cost you anything. I am not in the habit of bragging on anyone, but I will when it is worth while."

Our Large Factory With Annual Capacity of 20,000 Finished Vehicles.

YES SIR: We save you all Agents', Dealers', Wholesalers' and Jobbers' profits and commissions—we don't have traveling salesmen to stop at expensive hotels, and travel around on high salaries. Our entire business is conducted by mail—we have eliminated every extra and unnecessary expense. We are giving the vehicle buyers of this county the greatest values ever known. We manufacture right here in our own large factory as high grade vehicles as it is possible to produce and sell them to you at the wholesale price and save you all the "rake-off" of the middlemen.

Here Is How Our Plan Hits the Middleman

We have sold hundreds of thousands of dollars' worth of vehicles and harness direct from factory to consumer, and every sale has been a clean-cut straight-from-the-shoulder SMASH between the eyes of some "middleman." We are sorry for this—we regret that our pathway to success should be strewn with wrecked hopes and thwarted ambitions of those who have tried in vain to hold us back. Personally we have nothing against dealers, agents, jobbers, mail order catalog houses and other middlemen, who seek to gather two or three profits, when we are satisfied with one—we are really sorry for them, because they are doing business in the wrong way. A vehicle or set of harness is never worth more than the factory price, and because we save you all the expense and profits of the middlemen, they should not grow peevish and throw things at Bohon, for neither I nor my customers and friends are to blame—it is simply the law of supply and demand at work. Folks will buy where they can get the most for their money. That's the whole matter in a nutshell. Our plan hits the middleman, because the vehicle users of this country have made up their mind to do business on the straight line from factory to user, rather than on the zig-zag line from maker through traveling salesmen, jobbers, dealers, agents or catalog supply houses to user. Is there a reason?

You must either buy directly or indirectly—you must either pay three profits or one profit on your vehicles and harness. When a dealer buys a vehicle, he buys indirectly and absolutely must pay two or more profits before he takes the vehicle from the crate. Now, if you buy of a dealer, you must not only pay these two or three profits, but in addition, you must pay the dealer's profit and also his selling expense extra—four profits in all. When you buy of us, you buy directly—you pay one small profit. Our price to you is less than dealers can buy vehicles for spot cash in carload lots. Don't let the price-boosting middleman throw dust in your eyes—find out for yourself—get the facts, then decide. If you do this, you will surely buy of Bohon and save agents', dealers', jobbers' and salesmen's commission.

Some people are pretty hard to convince, especially when they don't want to be. Like the old backwoodsman on his first visit to the circus, for instance. He went around the giraffe, round the tall fellow, around the elephant, round the tall fellow, on one side and down the other for about five minutes; then shifted his quiet from one side of his mouth to the other, took his hat off, and, looking them carefully, and turning to the attendant said:

"Huh! There Ain't No Such Animal!"

That old fellow reminds me of the people who say "Bohon has no factory; Bohon's vehicles lack quality; made to sell, not to wear, etc."

The only difference is that the old backwoodsman was trying to deceive himself—he honestly thought his eyes were playing tricks—while the fellow who says, "Bohon does not make the highest grade vehicles in his own factory," right here in Harrodsburg, is trying for a selfish purpose to deceive you.

Don't let the dealer, agent or middleman throw dust in your eyes. Get the FACTS, known for you, not for him. The dealer that says that you do not manufacture our vehicles right here in our own factory—does so in order to sell you a vehicle and pocket a big profit. We have here a factory equal in equipment to any vehicle factory in the United States—BAR NONE.

Our Large 208 Page Catalog Shows More Vehicle Styles Than You Can Find in 20 Dealers' Stores

OUR LARGE MODERN FACTORY

Our large, modern factory is just as up-to-date as any in the United States. We have every facility for manufacturing high-grade vehicles at the lowest cost of production. Please don't confuse our factory with some of the small repair shops here in Central Kentucky that possibly assemble one hundred vehicles in the course of a year, for we manufacture them by the thousands and sell them all over the United States, as well as in many foreign countries. We have every new labor-saving machine, every practical arrangement known. We have here as fine a collection of vehicle builders as was ever gotten together by any firm anywhere. They are men of

experience and ability, clean, moral and conscientious—they are men who like their work. Visit our office and factory if you can, and see for yourself how Bohon vehicles are made. Our factory is of personal and vital interest to you and every other vehicle user who wants to know the facts about why and how Bohon makes the best style vehicles, maintains the very highest quality and undersells the world. If every vehicle user in Kentucky really knew the truth and facts about the wonderful values we give—in spite of our already tremendous business—we would have to increase our factory, at least ten to fifteen times in order to supply the demand.

Come to See Us--Visit Us at Our Factory

Why not make us a visit? Come to Harrodsburg and see for yourself—look our factory over. Examine the high-grade material we use—go through our model factory from end to end and see our vast force of high-class skilled mechanics turning out as fine vehicles as are being made in the world. If you can't come, send a postal today for our large free catalog. Without doubt it is the finest book on vehicles ever issued, and we want you to have a copy. It shows views of construction and our superior equipment—it shows in colors how our vehicles are painted and upholstered and has more styles than you will find in twenty dealers' stores. Here is a picture of the cover of this catalog.

It is the most elaborate vehicle and harness catalog ever published—it is a regular vehicle and harness encyclopedia. A postal card with your name on it will bring you this book by return mail with all postage paid.

This Catalog is Free For the Asking.
